

FILLING MACHINE

TABLETOP GRAVITY FILLERS

APACKS FGT-4000-AP Tabletop Four Head Gravity Filler is ideal for a variety of thin products. Accuracies are achieved using the volumetric-by-time filling method.

The FGT-4000-AP is manufactured with a heavy duty 304 stainless steel, tig-welded frame and is available with Four 316 stainless steel Fill Heads. PLC Controls with touch screen HMI and a Polyethylene Gravity Reservoir come standard. Options are available for even more versatility.

Gravity Fillers are commonly used for filling beverages and other thin products, especially where foaming may be an issue.

Shown with integrated table and rails, sold separately.

SPECIFICATION

Standard Construction: 304SS tig-welded frame

Number of Fill Heads: 4

Filling Size: 1oz to 1gal with upgradable capability

Filling Speed: Dependent on operator & products

Power Requirement:

120V, single phase, 15 amp, 50-60Hz
