

LSR-3000-TL Semi-Automatic Round Product Labeler

LABELERS

The LSR-3000-TL Semi-Automatic Round Product Labeler is a uniquely designed pressure sensitive adhesive (PSA) label applicator. It will accommodate round product containers from 1/4" to 6" in diameter. It is also capable of handling most tapered products. The 'open carriage' design allows the applicator to apply labels to products of virtually any length using one standard unit.

Simply load the labels, insert the product container and activate the labeling process by pushing down on the Foot (or hand) Pedal. The pneumatically-operated Label Head closes down on the container. As the Container Support Rollers turn the container, the label is applied and automatically stops once dispensed.

The LSR-3000-TL provides a cost effective and efficient solution to any packaging line. It comes standard with a solid steel frame, Solid State Electronics, Scrap Rewind, Foot (or hand) Pedal, and Photo Cell Label Sensor. Options are available for even more versatility.

SPECIFICATIONS

LSR-3000-TL

Round Product Size: 1/4"(6.35mm) to 6" (152.4mm) diameter

Min Label Size: 1/2" (12.7mm) x 1/2" (12.7mm)

Max Web Width: 5" (127mm)

Max Label Size: 4 7/8" (123.83mm)

Web Speed: 250"/min (6350mm)

Label Roll Inside Diameter: 3" (76mm)

Label Roll Outside Diameter: 12" (304.8mm)

Power Requirement:
115VAC, single phase, 50-60Hz

Air Requirement:
60PSI clean, dry compressed air

Dimensions & Weights:

- Length - 34" (863.6mm)
- Width - 17" (431.8mm)
- Height - 16" (406.4mm)
- Weight - 75lbs (34kgs)

OPTIONS

LSR-3000-TL

- Hot Stamp Coder
- Registered Ink Imprinter
- Label Counter
- No Air Required System
- 7" (177.8mm) Wide Label Kit
- Clear Label Photo Cell Sensor

LST-3000-TL Semi-Automatic Tamp Labeler

SPECIFICATIONS

LST-3000-TL

Min Label Size: 1/2" (12.7mm) x 1/2" (12.7mm)

Max Web Width Size: 5" (127mm) x 5" (127mm)

Max Label Size: 4 7/8" (123.83mm) x 4 7/8" (123.83mm)

Label Roll Inside Diameter: 1" (25.44mm) or 3" (76mm)

Label Roll Outside Diameter: 10" (304.8mm)

Power Requirement:

115VAC, single phase, 50-60Hz

Air Requirement:

60PSI clean, dry compressed air

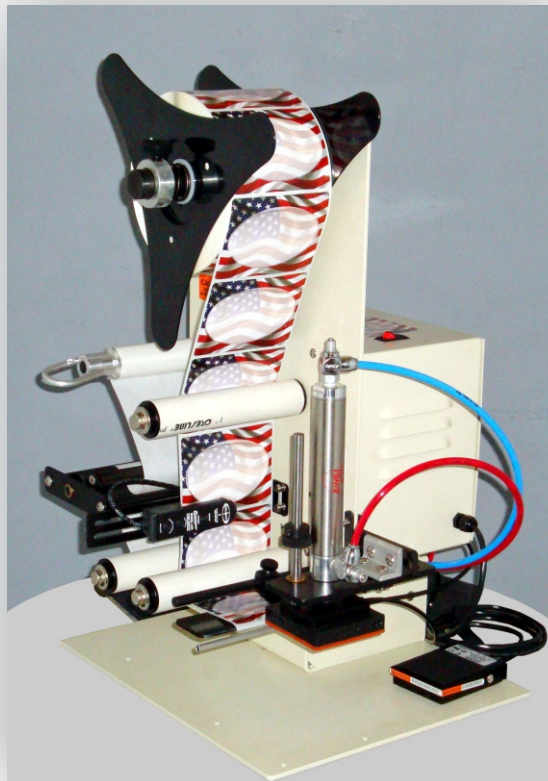

Dimensions & Weights:

- Length - 15" (381mm)
- Width - 17" (431.8mm)
- Height - 24" (609.6mm)
- Weight - 55lbs (24.95kg)

OPTIONS

LST-3000-TL

- Custom Vacuum Pads
- Universal or Custom Product Fixture
- Extended Stroke Tamp Cylinder
- Hot Stamp Coder
- Label Counter
- 7" (177.8mm) Wide Label Kit
- Clear Label Photo Cell Sensor

The LST-3000-TL Semi-Automatic Tamp Product Labeler is a reliable and industrial grade pressure sensitive adhesive (PSA) label applicator. It will accommodate virtually any size product container requiring tamp or two-sided labeling.

Simply load the labels (staggered for two-sided), insert the product container and activate the labeling process by pushing down on the Foot (or hand) Pedal. The pneumatically-operated Label Head tamps down on the container and automatically stops once dispensed.

The LST-3000-TL provides a cost effective and efficient solution to any packaging line. It comes standard with a solid steel frame, Solid State Electronics, Scrap Rewind, Foot (or hand) Pedal, and Photo Cell Label Sensor. Options are available for even more versatility.

- **Complete line of filling and packaging solutions**
- **Standard filling machines in stock and ready to ship**
- **Economical prices, installation services and excellent customer service**
